JOBE WATERSPORTS

PRODUCT GUIDE 2027

www.jobesports.com

GETS YOU ON THE WATER

Jobe is for everyone. Since 1974, we have been creating unforgettable **#jobemoments** and inspiring people around the world to get out and enjoy the water. No matter your age, background, skill level, or ambition - Jobe is here to help you discover the fun, adventure and freedom the water has to offer. That's why every product we create is designed with purpose, crafted with care, and built to make the most of every moment on the water. Season after season. It's not just about equipment. It's about creating memories that last a lifetime. That's what **Gets You on the Water** means to us.

Join the family and share our passion for watersports.

YOUR BEST MOMENTS

Capture your moments, share them with hashtag **#jobemoments** and have a shot on getting featured on our socials. Spread the word and get more people on the water!

2027 PRODUCT INNOVATIONS

This is where our renewed collections come to life. With refreshed designs, upgraded favorites, and striking new colorways, every piece is designed to work seamlessly together. Alongside these updates, innovative products like our E-Foil, wakefoil and E-Fin continue to push the boundaries of watersports, delivering the performance, comfort, and quality you expect from Jobe.

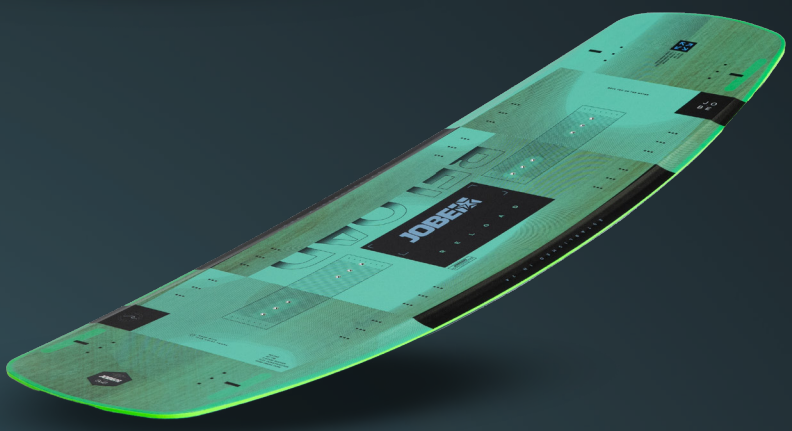

P. 155 **VEST COLLECTION**

Our renewed vest collection features an improved fit, upgraded materials, and enhanced comfort. Finished with a fresh new look, it's designed to perform as good as it looks.

P. 182 **WETSUIT COLLECTION**

The new wetsuit collection combines upgraded quality with improved fit and flexibility. With a fresh, modern look across the range, it delivers comfort and performance in every condition.

P. 51 **WAKEBOARD COLLECTION**

Same performance, fresh new look. Our Wakeboard collection is updated with bold new styling to stand out on the water like never before.

P. 107 **FLOW E-FIN 2.0**

Take your SUP or kayak adventures further with the Flow E-Fin 2.0. Glide effortlessly across the water, covering more distance with less paddling.

P. 67 **GRAVIX WAKEFOIL**

The new way of watersports behind a boat! Float above the surface with the Gravix wakefoil, perfect for beginners and advanced riders.

P. 205 **NEW APPAREL**

From softshell jackets to fleece sweaters and rash guards, our new apparel range is perfect for long, comfortable days on the water.

P. 99 **EPIX E-FOIL**

Experience the future of watersports with the Jobe Epix E-Foil Set. Powered by a 4000W motor and capable of speeds up to 36 km/h, it delivers smooth, silent flight above the water with up to 90 minutes of ride time.

TOWABLES

A FUNTUBE FOR EVERYONE

Jobe has been making the best inflatable products since 1974, and no matter where you are in the world, there's a big chance you've seen a towable of ours somewhere along the coastline.

With our knowledge and experience, we have been making summers awesome since the day we started and continue to do so!

EXCEPTIONAL SHAPES

A deck is just a deck right? Wrong! A Jobe deck is something different, something which makes us stand out. Instead of using industry standard mold which is used by everyone, we made our own to make something which just hits different and makes the most out of the original shape.

So shapes like our Scout, Airstream and many others have been tweaked to perfection! With edgy lines, unique shapes and great design, you have something which will have all the heads turning when you're towing!

FEATURES THAT MAKE THE DIFFERENCE

Our towables are thoughtfully designed with unique features that enhance your experience on the water.

They're equipped with a smart drainage system that reduces drag and improves fuel efficiency. Soft tops provide a cushioned, comfortable surface that's gentle on the skin, making long rides more enjoyable for everyone.

When it's time to get back on, the built-in boarding platform on the Ridge makes re-entry from the water quick and effortless.

It's all about smarter design for carefree rides.

TOWABLE EXCELLENCE

Experts say it's the combination of our high production standards and the use of high quality materials. We say it is because our towables are thoroughly tested and undergo multiple quality checks. Therefore we can guarantee the quality of our products with a 3 year warranty on every towable!

BOSTON VALVE
For quick inflation and deflation.

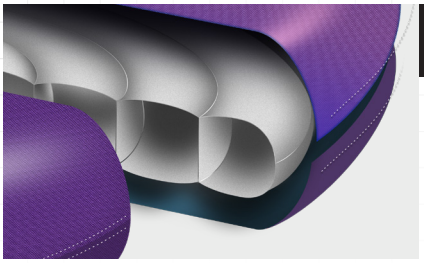

PVC INNER
Gauges vary from 16G (kids tubes), 24G (1-2-3 person tube), 30G (2-3-4 person tube) and 36G for commercial products.

NYLON COVER
Deniers vary from 420D for a 1-2 person tube, 840D for a 2-3 person tube and 1680D for rental products.

NEOPRENE DECK PADS
For a comfortable ride glued and stitched to the cover.

HANDLES WITH NEOPRENE KNUCKLE GUARDS
For a comfortable ride.

EXTRA SAFETY

Jobe towable tubes have extra durability and are extra safe because they consist of multiple air chambers. The combination with the Boston valve, which ensures air can only enter but not escape through the valve, makes Jobe towables a watersporter's favorite.

KEY FEATURES

- **BIGGER SIZES** for stability on the water.
- **BOSTON VALVE** designed to resist high pressure.
- **DOUBLE-STITCHED NYLON** for extra durability.
- **COMFORTABLE HANDLES** with neoprene knuckle guards.
- **QUICK ROPE CONNECTOR** connecting done in seconds.
- **NEOPRENE DECK PADS** for comfort and prevention of damage on the skin.
- **3 YEAR WARRANTY** for carefree riding.

MORE THAN A RIDE

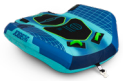

The rush, the thrill, the adrenaline. Feel the beating of your heart.
You never know what's next..

Are you ready?

FIND THE PERFECT TOWABLE FOR ALL YOUR WATERSPORTS NEEDS

Jobe offers a wide towable range with something for everyone, from thrillseekers to those who want to chill. Check out our overview and find the perfect towable which fits your needs.

TURBO PUMP 12V

Item 410017201

FEATURES

12v pump • 4 different nozzles to fit most valves • Crush resistant hose • 29 Ampere required • Pressure: up to 0,16 bar (2,3 psi) • Airflow 23,5 ft3 | min • Dimensions: 16 x 12,5 x 12,5cm | 6.3" x 4.9" x 4.9"

AIR PUMP 12V

Item 410019003

FEATURES

3 different nozzles • 12v pump • Cigarette plug • Dimensions: 12 x 11,5 x 12,5cm | 4.7" x 4.5" x 4.9"

AIR PUMP 230V

Item 410019001

FEATURES

230v pump • 3 different nozzles • 0,65 Ampere required • Pressure: up to 0,05 bar (0,74 psi) • Airflow 27,5 ft3 | min • Dimensions: 12 x 11,5 x 12,5cm | 4.7" x 4.5" x 4.9"

AIR PUMP WITH UK PLUG 230V

Item 410019002

FEATURES

3 different nozzles • 230v pump • UK plug • Dimensions: 12 x 11,5 x 12,5cm | 4.7" x 4.5" x 4.9"

TUBE BAG 1-2 PERSONS

Item 220816001

FEATURES

Suitable for 1-2 person towables • Easy and clean storage

TUBE BAG 3-5 PERSONS

Item 220816002

FEATURES

Suitable for 3-5 person towables • Easy and clean storage

BOSTON VALVE

Item 410800024

FEATURES

A universal one way Boston valve for all Jobe towables • Fits most towables on the market

TURBO PUMP 230V

Item 410017301

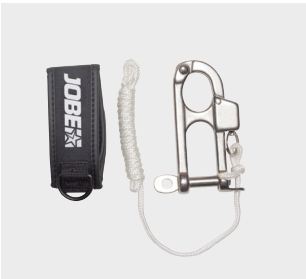

FEATURES

Dimensions: 21,5 x 18 x 16cm • Strong 230V pump • Includes a Halkey Roberts nozzle • Ampere: 3,87 A • Up to 2,7 psi | 0,19 Bar

QUICK RELEASE WITH WRIST SEAL

Item 210017033

FEATURES

Stainless steel release system • Comfortable wrist seal

MULTI PURPOSE REPAIR KIT

Item 420005001

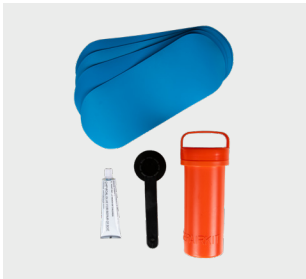

FEATURES

Multi purpose repair kit • For towables, inflatable paddle boards and wetsuits • For PVC, Nylon, Rubber, Neoprene, PU

MULTI RIDER REPAIR KIT

Item 320021002

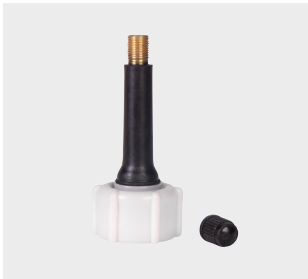

FEATURES

Repairs all multi-riders and watersleds • Including 1 tube of glue • Valve tool and 4X PVC patch

COMPRESSOR ADAPTOR

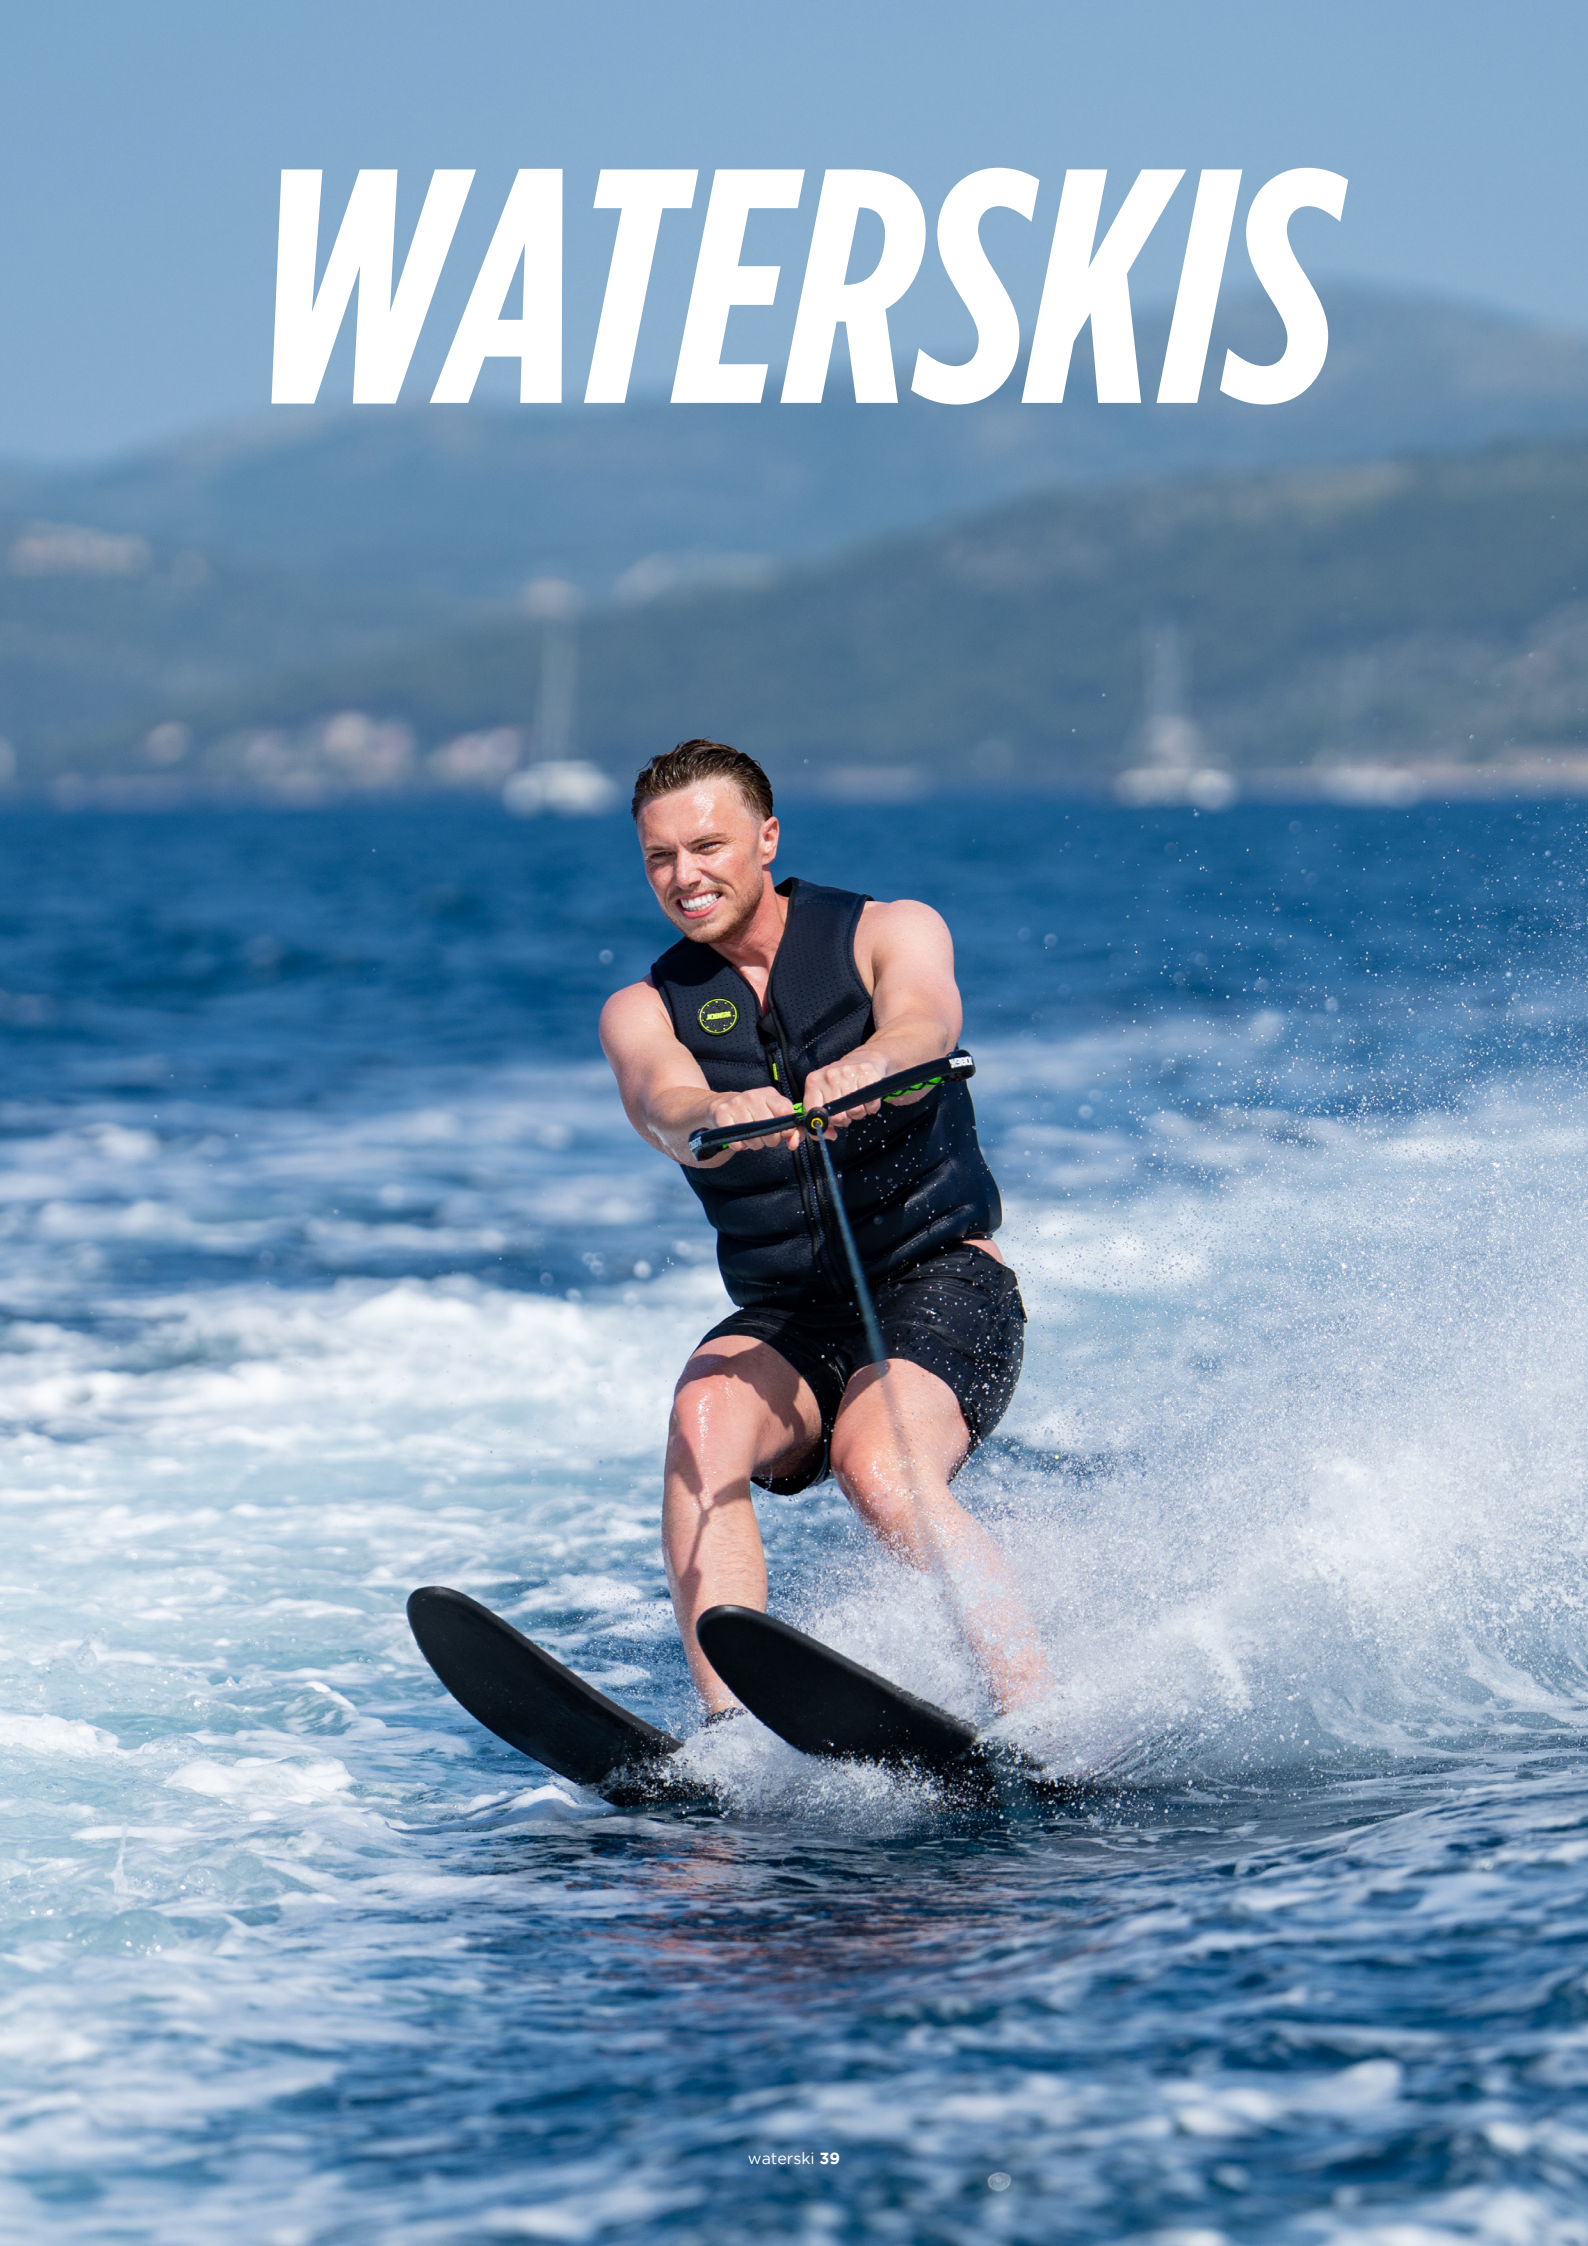

Item 410200023

FEATURES

Fits all Jobe Boston valves • Car tire valve to inflate with a compressor

WATERSKIS

ORIGIN OF JOBE

Back in 1974, pro water-skier Jeff Jobe founded the brand and started developing waterskis with the belief that we can do better, be better and make better products. Fast forward to 2027 and we still believe this to be true and strive to innovate and make the best products on the market.

BEGINNER		INTERMEDIATE	ADVANCED	SLALOM
				
HEMI TRAINERS (P41)	**HEMI COMBO** (P41)	**ALLEGRE COMBO** (P43)	**MODE COMBO** (P45)	**MODE SLALOM** (P45)

TOE STRAP

The extra molded overlay adds more durability which is useful when you let go of your combo ski to continue mono skiing.

OUTLINES

Our skis come with a tapered outline, ensuring the best time out on the water! A wide nose which runs narrow towards the tail of the ski gives the ski its floating capabilities and makes sure the nose of your ski doesn't dive underwater. Add some extra rocker in the nose of your ski and you've got yourself one of the best pieces of watersports gear out there.

TECHNOLOGY

Our range of skis come with the best tech to ensure the best ride. The outline might give the skis their floatation but the tech on the inside makes for the dampening and response. A rim injection combined with metal rods for better response, bright fins for visibility, V-bottom for better traction and that's just the tip of the iceberg!

HEMI TRAINERS

Item 202426002

RESPONSIVE

RIDER LEVEL easy intermediate advanced

SIZE 46"

FEATURES

Beginner level water skis for kids • Bright fins for extra visibility • Comfortable front toe and adjustable heel • Glossy protective top finish • Rim injection construction with extra metal rods for stiffness • Wide profile for easy starts • Tunnel design for easy edge to edge and better tracking • Including rope, handle and stabilizing bar • Adjustable binding fits size: EU 29-36 | US 3-6 • Graphic printed with eco friendly water based ink • Manufactured using solar power

HEMI COMBO SKIS

Item 202426001

RESPONSIVE

RIDER LEVEL easy intermediate advanced

SIZE 59" 65"

FEATURES

Beginner level water skis • Rim injection construction with extra metal rods for added stiffness • Wide profile for easy starts • Tunnel design for smooth edge-to-edge transitions and improved tracking • Glossy protective top finish • Bright fins for extra visibility • Comfortable front toe and adjustable heel • Extra overlay for durability • Slalom toe • Adjustable binding fits size 59": <55kg | EU 32-40 | US 1-6 • Adjustable binding fits size 65": >50kg | EU 36-47 | US 5.5-14 • 59" version includes stabilizer bar • Graphic printed with eco-friendly water-based ink • Manufactured using solar power

A NEW ERA

We're proud to unveil the future of waterskiing. Our latest waterskis feature a revolutionary design - unlike anything the sport has seen before. Sleek, daring, and unapologetically bold, it's built for those who ride to stand out.

Item 210017031

FEATURES

Length 8 ft | 2,43 m • Maximum pull 2 persons • 2 stainless steel carabiners to connect to your boat • Max break strength: 2375 lbs | 1077 kg

WAKEBOARDS

IT'S ALL ABOUT THE EXPERIENCE

It's not about the highest jumps, the most spins or double flips... Wakeboarding is about the good times! We're longing for those summer days on the boat with friends. The days where we ride out, push each other and laugh about our fails and cheer when we land something new.

A COLLECTION THAT HITS

Step into the new season with a fresh look on the water. Featuring updated designs across the entire collection, this range combines bold, modern styling with the trusted performance riders have come to expect.

Built to turn heads while delivering the same comfort, quality and reliability, it's designed to stand out from the first ride to the last.

OPEN TOE VS. CLOSED TOE

When it comes to wakeboard bindings, the choice between open toe and closed toe comes down to fit and performance.

Open toe bindings offer more flexibility in sizing, making them great for sharing and growing feet, ideal for beginners or family setups.

Closed toe bindings, on the other hand, provide a snug, responsive fit for better control and power transfer, perfect for advanced riders looking for precision.

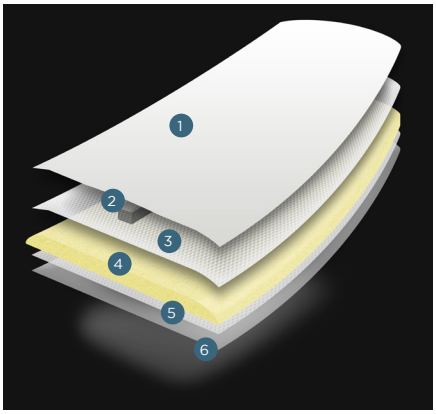

Both have their place - it's all about what fits your style and needs on the water.

WAKEBOARD CONSTRUCTION

Different constructions mean different riding experiences. We made sure there's a board for everyone, check out which technique suit your needs!

PU FOAM CORE

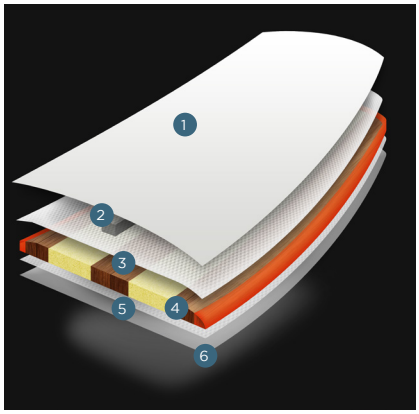

FUNCTIONAL AND RELIABLE

1. Topsheet
2. Stringer
3. Fiberglass lay-up
4. **PU foam core**
5. Fiberglass lay-up
6. Base

PU FOAM CORE

Foam is a lightweight material which absorbs the blows from a landing and makes for higher jumps due to the reduced weight.

HYBRID CORE

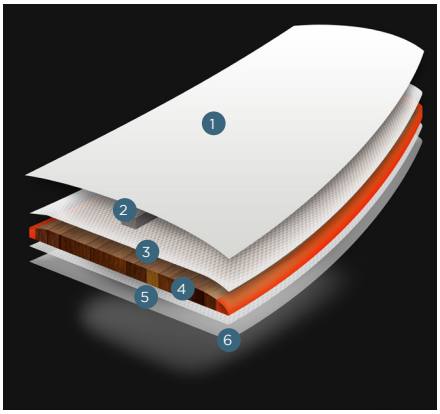

THE ULTIMATE MATCH OF FLEX AND STRENGTH

1. Topsheet
2. Stringer
3. Fiberglass lay-up
4. **Hybrid core of wood and PU foam**
5. Fiberglass lay-up
6. Base

HYBRID CORE

A combination of PU foam and wood core for unmatched performance. This makes for a lightweight board with a nice soft flex, the best of both worlds!

FULL WOOD CORE

THE BEST FOR HITTING CABLE PARKS

1. Topsheet
2. Stringer
3. Fiberglass lay-up
4. **Full wood core**
5. Fiberglass lay-up
6. Base

FULL WOOD CORE

The full wood core makes for a super flexible yet strong board. Perfect for when your hitting all kinds of obstacles at the cable park.

ROCKERS

THREE STAGE

Looking for aggressive pop and an easy lock? Three stage is the way to go. A shape which gives a competitive edge to your board.

CONTINUOUS

A shape with a more forgiving and relaxed nature. This rocker has a more consistent speed which also results in the fastest shape out there.

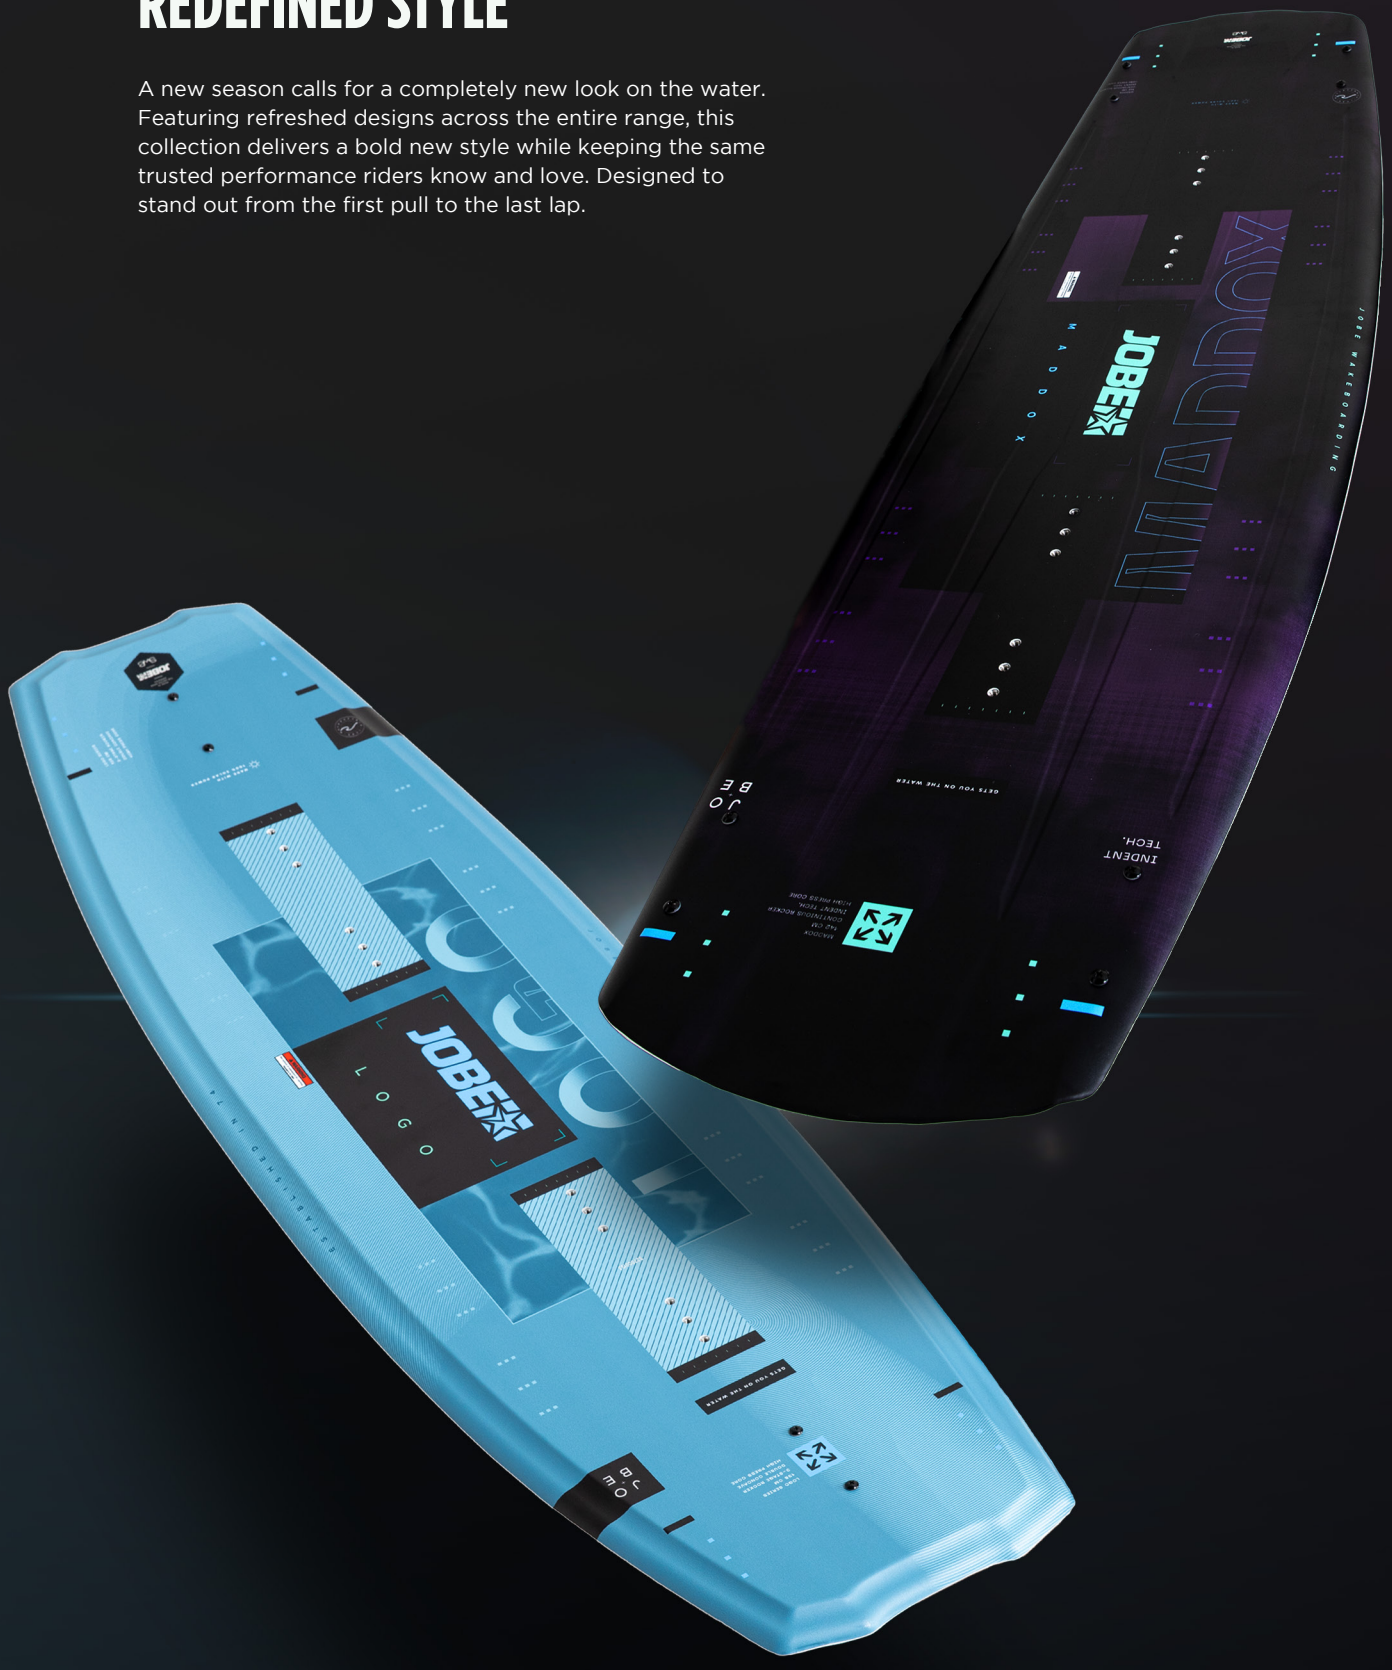

HYBRID

This rocker is the best of both worlds. It combines the speed of a continuous rocker with the aggressive pop of a three stage rocker.

REDEFINED STYLE

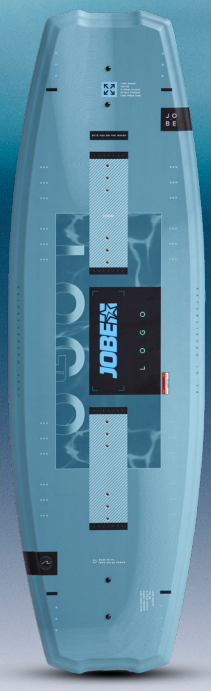

A new season calls for a completely new look on the water. Featuring refreshed designs across the entire range, this collection delivers a bold new style while keeping the same trusted performance riders know and love. Designed to stand out from the first pull to the last lap.

WAKESURFERS

CHOOSE YOUR WAKESURFER

RAISE	LAZE	PACE
		

TRUE SKIM STYLE

Our skim-style **Raise** wakesurfer features a lightweight construction, thin rails, and a fast rockerline for sharp control and quick response on the wave. Designed for riders who love technical tricks, it delivers the speed and agility needed for shuv-its, spins, and quick transitions.

With a single concave bottom, low-profile skim fins, and a fast-releasing shape, the Raise feels lively and responsive underfoot, making spins effortless and every session more playful.

LAZE VS. PACE

Both the Laze and Pace wakesurf boards are built around the same traditional foam core, delivering a smooth, consistent ride with a classic surf feel.

The Laze is the larger of the two, offering extra stability and control - perfect for beginners or riders who prefer a more relaxed, forgiving ride.

The Pace, on the other hand, is designed for added playfulness, giving you more freedom to carve, pump, and push your style on the wave.

PACE WAKESURFER

Item 582524004

AESTHETICS MEETS FUNCTIONALITY

If you look closely at our wakesurfers, you'll find a die cut pattern in the deckpad, and we designed this for good reason!

When it comes to wakesurfing, grip is everything. This custom die-cut pattern not only enhances the board's look but also adds traction, giving your toes something to hold onto. The result? Better edge control, faster response, and more fun every ride.

FEATURES

Padded carrying bag • Gravix Mast access slit • Mast pocket • Front wing pocket • Stabilizer pocket • Fuselage pocket • Top plate pocket • 2 zippered accessory pockets

KNEEBOARDS

CHOOSE YOUR KNEEBOARD

SLASH

PROPHECY

SLASH VS. PROPHECY

The Slash is an easy to ride board with a fast learning curve. This board is fast, super playful and its winged outline is great for carving!

The Prophecy is your entry way to a wide range of tricks! This kneeboard is a light and stable board that is playful and perfect for tricks for the slightly more experienced riders.

ROTO MOLDED VS.COMPRESSION MOLDED

The Slash boards have a rotomolded foam injection build, which gives the boards extra buoyancy and durability.

Our Prophecy kneeboard is produced with the same techniques as our wakeboard collection and has therefore similar great features. The high-press core is covered in Tri-tech fiberglass to produce a light and thin board ensuring a strong product with the best response and playfulness.

PLAYFULNESS

FEATURES

Easy start tow hook • Comfortable EVA foam kneepad • Deep center channel for stability • Winged outline for extra playfulness and slashing through the water • Max rider weight 100 kg | 220.5 lbs • Size: 124 cm x 51.5 cm | 48” x 20.3”

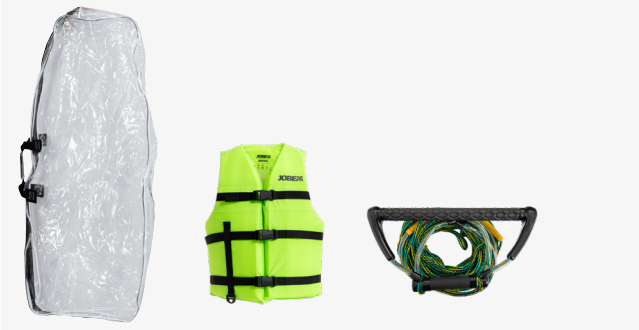

PACKAGE CONTAINS

Transparent Kneeboard Bag • Universal Vest Teal • Tow Hook Handle

PACKAGE CONTAINS

Transparent Kneeboard Bag • Universal Vest Blue • Tow Hook Handle

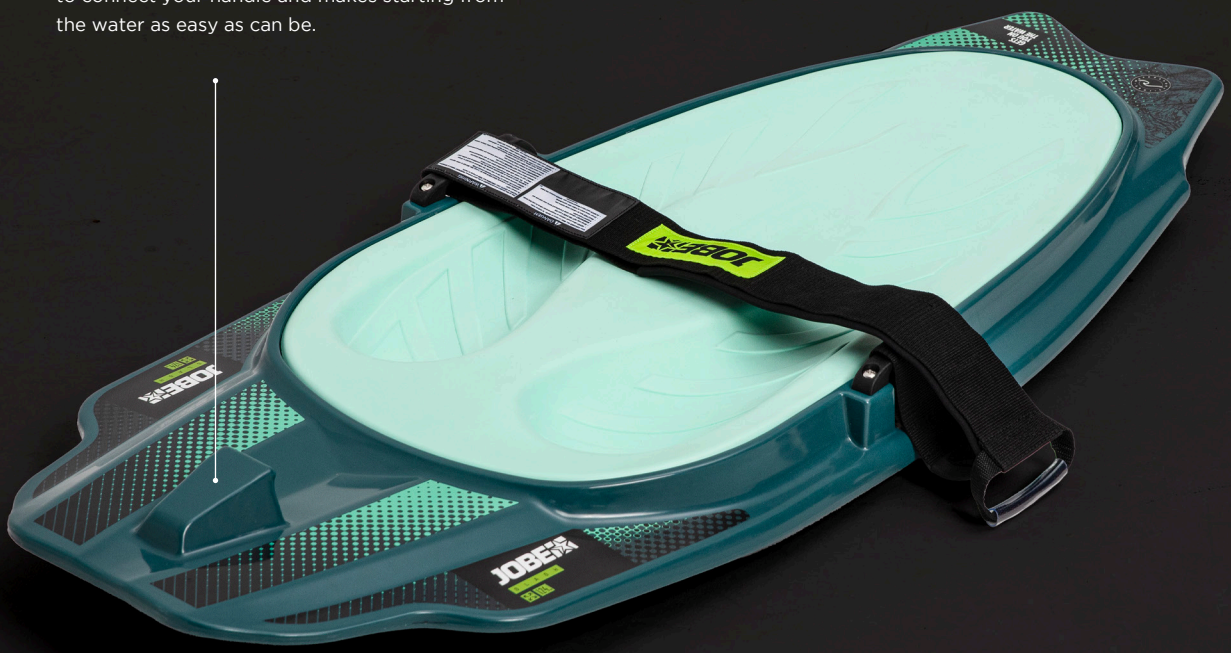

MADE TO SLASH

The Slash has proven to be an innovator which has been loved by all! Where others have a factory standard shape, we decided to take a different route and implement our Form Follows Function philosophy in our design.

EASY START TOW HOOK

This board comes equipped with a tow hook for an easy start. Kneeboarding made easy for beginners and young ones as this tow hook makes it possible to connect your handle and makes starting from the water as easy as can be.

WINGED OUTLINE

The Slash features an innovative winged outline that creates one of the most playful kneeboards that we ever had! This special shape gains more speed and effortlessly carves you through the water.

CHANNELS

This board features a channel setup which has been tried and tested to get the most out of the unique winged outline. A channel setup which is combined with a deep center channel for stability and deeper channels towards the tail make for plenty of grip. But because we kept the molded fins out, you do get a board which has a playful touch making it possible to twist, turn and slash around.

PROPHECY KNEEBOARD

Item 252326001

RESPONSIVE

RIDER LEVEL

easy intermediate advanced

PLAYFULNESS

FEATURES

High press core • Fully padded single kneeboard strap • Tri-tech fiberglass • Comfortable EVA foam knee pad • Molded fins and deep channels for extra traction • Max rider weight 120 kg • Made with 100% solar power • Dimensions: 133 x 54 cm | 52.36” x 21.26” • Board thickness: 3.5 cm | 1.4”

TOW HOOK HANDLE

Item 211222003

FEATURES

15 inch | 38,1 cm wide handle • 27,4 mm thick round grip • EVA profiled handle grip • 16 strand main line • 65 ft • 19,81 m main line with 2 extensions 5 ft • 1,5 m • Super-durable rubber tow hook handle for easy starts • Fits the Jobe Slash, Sentry, Omnia and Stimmel

MULTI POSITION BOARDS

MEET THE JOBE MULTI POSITION BOARDS

Designed for flexibility, these boards can be used in multiple orientations or positions, making them ideal for a long and fun time on the water! Stand up, lay down, get on your knees or ride it as a wakesurfer. Three boards, endless possibilities!

STIMMEL

OMNIA

CHIPPER

STIMMEL VS. OMNIA

The Stimmel is our classic multi position board with removable surf fins. Its big brother, the Omnia, is produced with the same techniques as our wakeboard collection and has therefore similar great features. The Omnia is lighter, thinner, contains removable footstraps and the board is more playful yet equally strong!

UNIQUE TOW POINTS AND INTEGRATED SIDE HANDLES

Our unique tow points makes the start so easy! Simply put the handle in the tow point, grab the side handles and the boat pulls you out of the water. Our unique tow points come in two different designs. One of the Stimmel & Omnia and one specially for the Chipper!

ROTOMOLDED VS. COMPRESSION MOLDED

Our Stimmel & Chipper are roto molded which makes both boards super strong and durable. Our Omnia board is compression molded which makes it strong, thin and light resulting in a playful and responsive board.

ELECTRIC WATER GEAR

THE MOST ACCESSIBLE E-FOIL

Experience the future of watersports with the Jobe Epix E-Foil Set. Powered by a 4000W motor and capable of speeds up to 36 km/h, it delivers smooth, silent flight above the water with up to 90 minutes of ride time.

What makes the Epix truly unique is its innovative dual-board setup, featuring both a stable 115L inflatable board for beginners and a more agile 85L board for advanced riders, allowing you to progress without changing your setup. Combined with its inflatable design for easy transport and storage, the Epix is the ultimate all-in-one E-Foil package for every skill level.

UNDERWATER EXPLORATION

Designed for effortless exploration, these powerful underwater scooters let you glide through the water with ease, whether you're snorkeling along the coast or diving deeper into the ocean.

Featuring multiple speed settings, a self-floating design, two batteries, and an integrated GoPro mount, they combine performance, convenience, and adventure in one compact package.

Choose the Seascooter for relaxed exploration, or level up to the Pro version for higher speeds and extra thrust when you're ready to take your underwater adventures to the next level.

THAT EXTRA BOOST

Take your SUP or kayak adventures to the next level with the Jobe Flow E-Fin.

This compact electric fin provides effortless propulsion up to 8 km/h, helping you explore further with less effort. Featuring three power modes, reverse functionality, and up to 4 hours of runtime, it offers the perfect balance of performance and convenience.

Lightweight, easy to install, and compatible with multiple fin box systems, the Flow E-Fin transforms every ride into a smoother, more enjoyable experience.

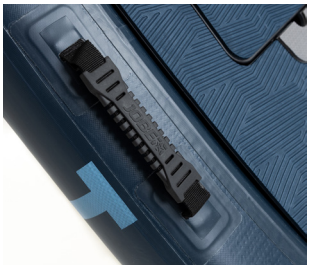

EPIX E-FOIL PACKAGE

Item 638826001

Item 281024014

INCLUDING

FEATURES

2 years warranty • Runtime up to 4 hours • 3 different modes and reverse gear • Speed: Up to 8 km/h • Charging time: 3,5 hours • battery capacity: 180 wh • Inter-changeable battery • Dimensions: 25 x 26,5 x 11 cm • Weight: 2 kg • Foam inlay premium waterproof bag with attachment hooks, to attach to the SUP or Kayak • EZ-lock, US and Slide-in fin box adapter • Always clean the E-Fin with fresh water after use.

COVER MORE DISTANCE WITH LESS EFFORT

Take your SUP or kayak adventures further with the Flow E-Fin 2.0. Glide effortlessly across the water, covering more distance with less paddling. Its electric power gives you smooth speed, total control, and more time to enjoy the ride.

3 DIFFERENT MODES

PADDLE - The E-Fin enhances each paddle stroke at a preset level.

DRIVE - The E-Fin speeds up as you push the remote slider up.

CRUISE - The E-Fin drives the board at a constant level selected on the remote.

STAND UP PADDLING

LITE SERIES

Dive into our Lite range, crafted to deliver Jobe quality at an affordable price point. With single layer dropstitch construction for lightweight performance, these stand up paddle boards are perfect for newcomers looking to start their paddleboarding journey without breaking the bank.

PREMIUM SERIES

Our flagships: the Premium range! A SUP range which has gained a lot of traction and has earned Jobe its great reputation. These SUP boards come with a longer deckpad, a double stringer and 6 inches thickness. Plus you get a premium 40% carbon paddle to enhance your SUP experience.

CONCEPT SERIES

Designed for versatility and performance. The concept series includes paddleboards for specific needs. Whether you're short on space or seeking multi-functional adventure gear, this new range has you covered.

FIND THE PERFECT SUP FOR YOUR NEXT ADVENTURE

Our SUP range offers something for every paddler, with options that vary in price and features - the higher the range, the more advanced the design and extras you'll get. Choose an allround board for relaxed leisure rides or go for a touring board if you're into longer adventures. And new to the lineup: a specialty range designed to meet specific needs.

FORM FOLLOWS FUNCTION

01 DECKPAD
A large EVA deckpad gives you a comfortable surface to stand on all day long, while providing you with plenty of grip.

02 BUNGEE STORAGE CORD
Our storage cord is integrated in the design, creating more room to store your gear when you're out on the water.

EZ LOCK FIN

The most easy to use and secure fin ever! Easily click this fin in and secure it by pressing down the lock, it's as easy as can be.

03 HEAT BONDED TECH
Our heat bonded technology fuses layers of the board together using heat, creating a durable, airtight seal that enhances the board's longevity and performance!

PREMIUM QUALITY

When you buy a stand up paddle board from our Premium Aero range, you can expect something extra!

The Premium range comes with extra features which are unique to this collection, making it the best of the best!

WIDER AND LONGER DECKPAD

The Premium Aero Range comes with an extra wide deckpad, this gives you more freedom of movement on the SUP and gives you added room to take someone along for the ride.
The center part is covered with soft EVA foam for a comfortable ride and the back of our deckpad has diamond pattern for added grip to initiate fast turning.

04 **RAIL TAPE**
This railtape is placed over the seems of the board creating a more durable board which guarantees the best airtightness.

06 **DOUBLE STRINGER**
A stringer on the top and bottom of the board for extra stiffness and strength, this also supports the rocker of the board making sure the SUP keeps its shape.

05 **X-STITCHING**
X stitching involves cross-stitching threads through the board's layers, creating a tight and secure bond that enhances the board's structural integrity.

40% CARBON STREAM PADDLE

Our Premium SUP boards come with a lighter, stiffer and better paddle; a fiberglass paddle with 40% carbon elements.
It is three-piece adjustable, making it easy to carry with you or store in a (SUP)bag. Our anti twist system on the paddle puts an end to additional forces by locking your paddle.

DOUBLE STRINGER

Jobe was ahead of the game with 1 stringer on the board but now we are adding another stringer on the bottom of the SUP.
This makes for more stiffness and keeps a better rocker shape in the board. The double stringers are placed for extra stiffness and more control, this also supports the rocker of the board making sure the SUP keeps its shape.

AERO YARRA SUP BOARD 10.6 PACKAGE STEEL BLUE

INSPIRED BY NATURE, PERFECTED BY HUMANS

The new Stream paddle owes its origin to one of natures best paddlers: Ducks! Millions of years of evolution have formed a shape that creates the best motion with as less effort as possible. We have processed that unique shape in our all new paddle: **THE STREAM.**

ANATOMY BREAKDOWN

As we said, this paddle is inspired by duck feet and it shows in its design. A duck feet has 3 long toes with the web in between and you can see the resemblance in our Stream Paddle! Three ribs, one in the middle and two on the sides, act as the bones and reinforce the blade. The rest of the blades, functions as the webbing in between the toes which push you forward when paddling. This structure is tried and tested through evolution itself, so we can tell you: this works great!

INFLATABLE SUP SEAT

Item 480024002

FEATURES

Deflated size: 75 x 29 cm • Inflated size: 73 x 28 x 25 cm • 420 Denier • 0,5mm | 20 gauge PVC • Tapered shape that fits all • 2 straps with buckles

KAYAKS

EASY GOING

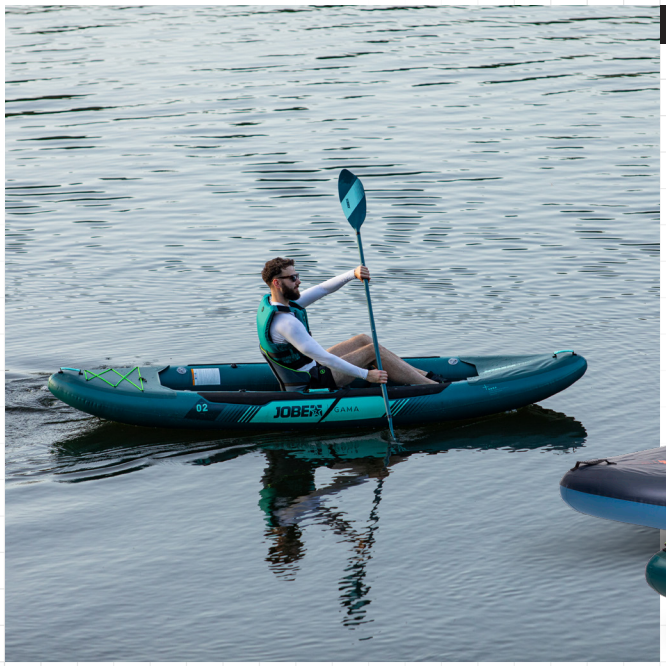

CROFT

Recreational, compact and durable. The Croft 340 is the perfect entry to your world of kayaking - For the long term! Fully provided with all the necessary accessories. And just as our full kayak range, the Croft is both usable for going solo and together.

PERFECT ALLROUNDER

GAMA

The Gama 365 might look similar to our Croft 340, but that's not the case! We've used a different fabric and the bottom air chamber features drop-stitching, resulting in a super stiff and fast kayak. With that being said, the Gama is a kayak that is also well suited to touring activities.

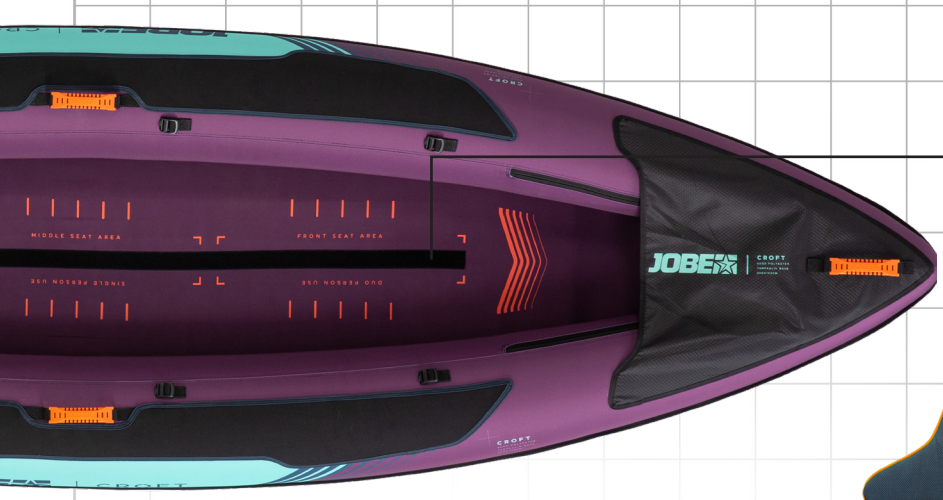

TOURING AT ITS BEST

TASMAN

This is not your average kayak. This one is for the true explorers, who like to keep on exploring for mile after mile! From the remote Scandinavian waters to the coastline of British-Columbia... The Tasman eats these places for breakfast!

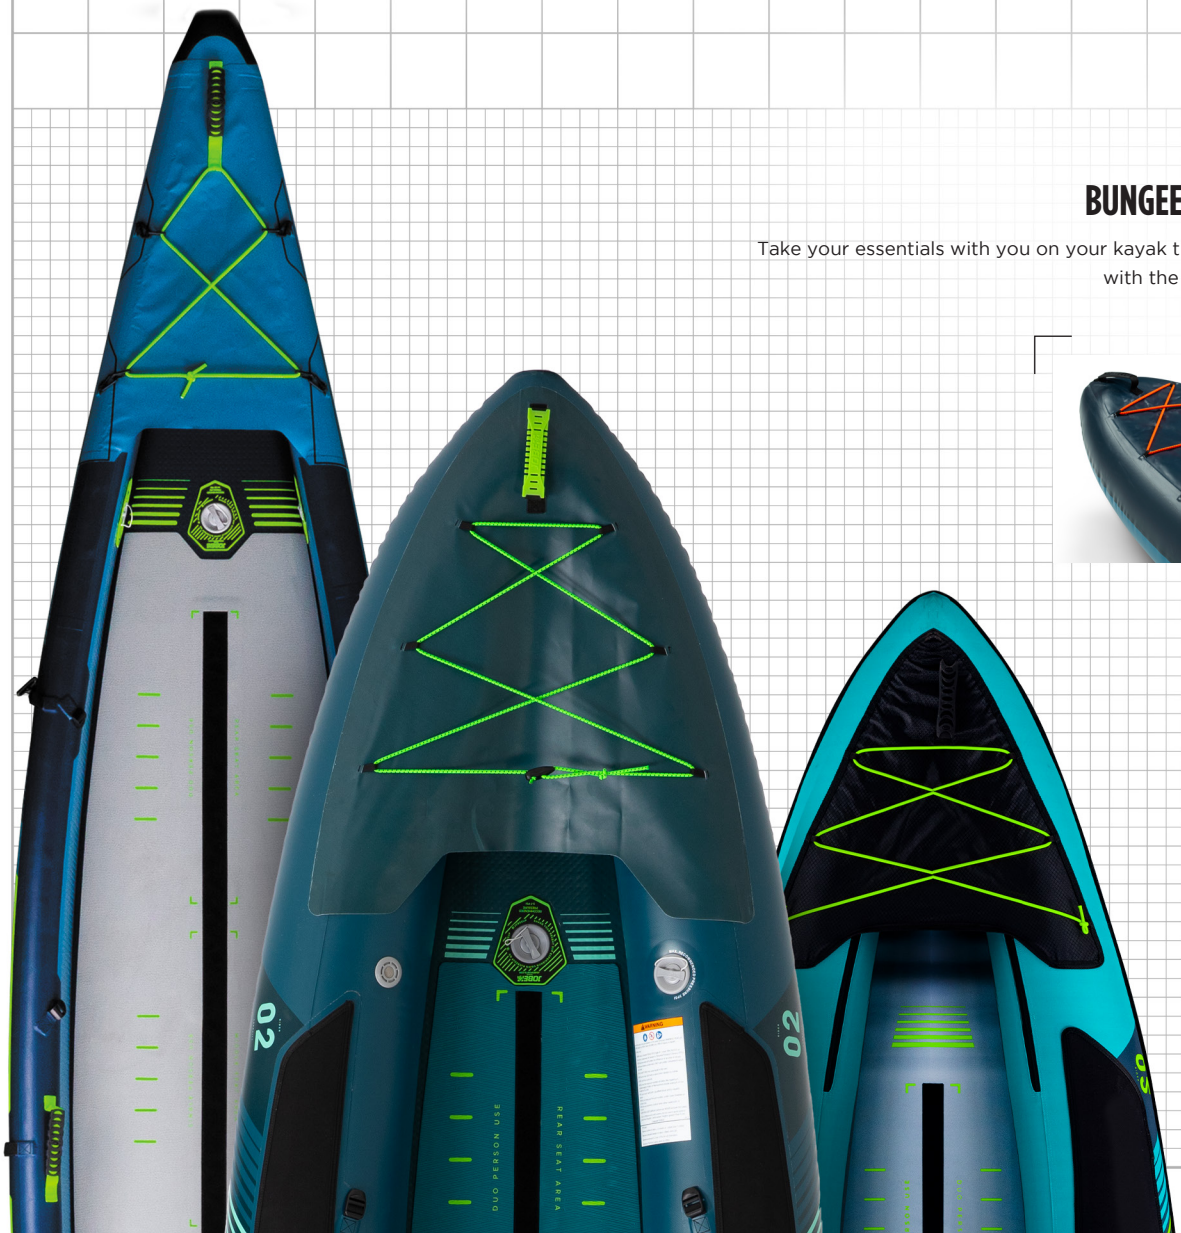

ADJUSTABLE SEATS

Put two seats in the front and back for a duo ride or go solo with one seat in the middle! Easy to fix on the velcro strap.

BUNGEE STORAGE CORD

Take your essentials with you on your kayak trip by securing them with the elastic bungee cord.

INFLATABLE

EASY TO TRANSPORT

All Jobe kayaks are inflatable! The deflated kayak can easily be stored with the paddles, seats and pump all in one bag.

VESTS

JOBE'S PERFECT FIT

Jobe watersports life vests and buoyancy aid vests have a better fit than ever: Jobe's Perfect Fit. The fit of every Jobe vest is based on scientific research, where people of all sizes and ages were measured and weighted to determine the optimal size for every body type. We took these measures to extend our size range. Every vest is then tested by an official certified institution to make sure it meets the highest quality, comfort and safety standards.

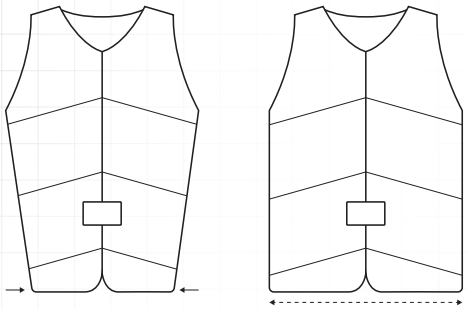

A size for every body!

MENS PLUS SIZES

Whether you have an athlete or leisure kind of body type; there's always a vest with the right fit for every man and every body out there. Our + range gives just a bit more room around the waist so everyone can find their perfect fit!

XS to XL **XL+ to 5XL+**

WOMENS PLUS SIZES

Plus sizes for Womens vests have a different meaning than the mens vests. To create a perfect fit for our female customer we have minimized the grading between the womens vests sizing, this resulted into the plus sizes in the women range to ensure you find your perfectly tailored vest. For example; the S+ vest has the same length but a wider fit than the S sized vest.

XS S **S+** M **M+** L XL XXL

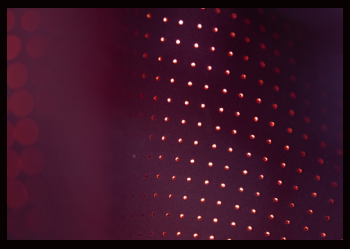

A FAVORITE AMONG WATERSPORTS ENTHUSIASTS

Our best-selling neoprene vests delivers premium comfort, flexibility, and performance at an unbeatable price. Designed for riders who want maximum value without compromising on quality, it's the perfect balance of fit, protection, and style. Simply the best 'bang-for-your-buck' vest in our collection.

MATERIALS

NEOPRENE FABRIC +++

- High stretch
- Soft to the skin
- Flexible fabric for complete freedom of movement

PVC FOAM ++

- Durable closed cell foam
- Comfortable & soft

EPE FOAM +

- Lightweight
- Low water absorption

CHOOSE YOUR VEST

Our vest range covers everything from essential safety to peak performance. We offer various options to suit everyone - from casual riders to dedicated pros. Each vest is designed in a different range of comfort. At the top end, you'll find ultimate freedom of movement, ideal for wakeboarding where flexibility is key.

A FRAGMENT OF WHAT TO EXPECT

Top performance is what it's all about! We wanted to create a vest which has the best performance, but also keeps safety in mind. Strategically placed panels make for optimal freedom of movement but ensure floatation. Where others sacrifice safety for performance, we went above and beyond to ensure the best of both!

SIMPLY THE BEST!

From its focus on safety, to its freedom of movement, to the "Perfect Fit" technology, the Fragment has it all! But it's also made from the best neoprene, which is our Supreme Stretch Neoprene. A vest with such a great panel placement, combined with the stretchiness of our neoprene, makes for a vest which is simply the best!

WETSUITS

FOR ALL WATERSPORTS

With a Jobe wetsuit you can enjoy watersports all year long! The thickness, length, construction and the thermo lining of the suit determines the warmth of a wetsuit. Jobe wetsuits range from 2 to 4/3 mm neoprene, so you can hit the water with any temperature.

All Jobe wetsuits have ergonomic panels for optimal freedom of movement and comfort. Perfect for all kinds of watersports! On top of that, the collection has fresh colors with bright details that match with the rest of the Jobe collection.

MIX AND FIND YOUR PERFECT MATCH!

THE NEW STANDARD

The flexible stretch and strategic seam layout give you full freedom of movement. It fits comfortably in every situation on the water.

The soft inside feels nice on your skin and reduces stickiness. This makes it easier to put on and take off.

The new designs mix and match with all Jobe products for a clean, stylish look. Create a combination that fits your style.

LIMESTONE NEOPRENE

At Jobe, we use a limestone-based neoprene which comes with lots of benefits. It's lightweight, warm, absorbs less water, has more flex and better insulation qualities. This offers great freedom of movement for the ultimate watersports experience. On top of that, this fabric is more resistant to tearing than traditional neoprene, which makes them more durable!

WHAT WE'RE MADE OF

We demand only the best neoprene for our wetsuits. Neoprene is the most important determinant of stretch and because we believe you should comfortably perform water sports, Jobe wetsuits all have a great level of stretch.

SUPREME STRETCH
Maximum freedom of movement during every watersport session.

ERGONOMIC FIT
Feels like a second skin, reduced water entry and maximizing comfort.

REINFORCED KNEEPADS
Increased durability, wears out less quickly.

CHOOSE YOUR WETSUIT

Choosing your wetsuits is dependent on the water temperature and the type of watersports you want to perform. Wakeboarding or slalom skiing demands a higher level of stretch than laying on a tube. Therefore, you want to look for the level of stretch in a wetsuit. Besides that, a chest zip gives more flexibility to the wetsuit, while a back zip means the wetsuit is easier to put on. Knowing the temperature of the water is very important. Colder temperatures require more high end wetsuits like our steamers that use a lot of techniques to keep you warm. Enjoying a tubing day in the summer? Then look for a shorty wetsuit instead.

APPAREL & FOOTWEAR

FRESH APPAREL

Life on and around the water, made easy with Jobe.

Our new apparel collection brings style and comfort together. From a chilly day on the boat in our fleece vest to a stylish polo at the beach bar, we've got you covered.

THE GO-ANYWHERE SNEAKER

The Jobe Discover Watersports Sneakers can handle it all while making you look good!

This sneaker has been designed and tested with an exclusive sole for optimal water drainage and plenty of grip. Combine this with a unique quick dry upper and convenient lace system and you've got a shoe which is perfect for watersports or casual use.

So hit the water and be ready to hop on land and wherever you are, be sure to take these sneakers along for the ride!

WATER REPELLENT BAGS

Crafted from high-quality, luxurious materials, these bags offer a variety of styles and options.

Perfect for on-the-water adventures, shoreside activities, and simply any situation where a premium water repellent bag is essential.

HOW TO MEASURE

1. CHEST
Place the tape under your arms. Measure the chest at the widest part.

2. WAIST
Measure around the narrowest part of your waist.

3. HIP
Measure around the widest part of your hips.

4. LENGTH
Measure from head to toe.

5. BODY LENGTH
Measure from the shoulder down.
